Continuation Sheet

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Applicant's representative initiated a telephonic interview with the examiner of record to discuss a possible amendment to the claims to hopefully put the case into condition for allowance. Applicant's representative proposed changing the limitation "useful for providing skin care benefits" to "useful for exfoliating skin." The examiner expressed concern about the limitation because it was questioned how this new limitation would structurally differentiate the claimed invention from the prior art.
